

3D Hand Illusion

What you Need:

Paper

A Marker

Pencil

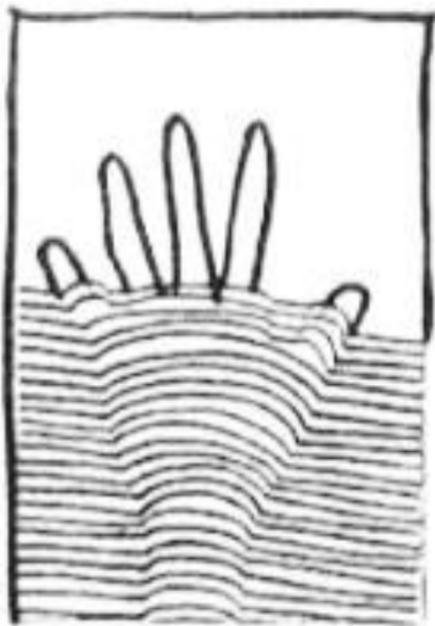

Your Hands

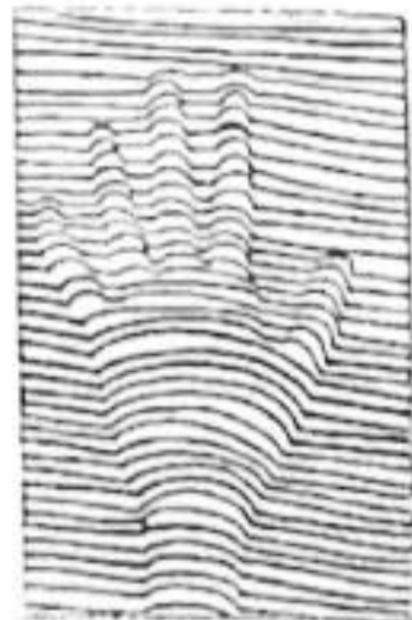

1. Trace around the shape of your hand using your pencil.

2. Now take the marker pen and, starting from the bottom of your page, draw a line until you reach the pencil outline of your hand. When you get there, make a curved line over your hand as shown.

3. Continue to fill the page with straight lines which curve over your hands pencil outline.

1. Admire your 3D hand!
